OROUB AJARMEH

FULLSTACK WEB DEVELOPER

ajarmehoroub12@gmail.com   0790647508   LinkedIn | GitHub

Objective

Web developer with a solid foundation in front-end and back-end technologies, including JavaScript, PHP, Laravel, React, and SQL Server. Seeking a position that allows me to utilize my skills in full-stack web development to contribute to innovative projects. Committed to creating user-friendly, responsive web applications that enhance user experience and support organizational goals while continuing to grow my technical expertise.

EXPERIENCE

Training in Full-Stack Web Development
Orange Coding Academy
Duration: 4 Months

- **Completed** an intensive full-stack web development training, covering HTML, CSS, JavaScript, PHP, Laravel, MySQL, and Git.
- **Developed** multiple full-stack web applications, applying best practices in front-end and back-end development.
- **Gained proficiency** in building responsive, user-centered designs, database integration, and server-side scripting.
- **Collaborated** on group projects to simulate real-world development environments and practice agile methodologies.

Web Developer
Stars Tech
January 2025-Present

- **Developed internal web applications using ASP.NET and Angular** to streamline employee and user management workflows, improving operational efficiency and overall productivity across departments.

- **Designed and maintained robust back-end systems using ASP.NET Core and SQL Server**, enabling reliable data management for users, employees, services, communities, events, facilities, and user evaluations.

- **Optimized data handling, storage strategies, and API performance**, resulting in faster response times and improved usability for administrative staff and end-users.

- **Implemented user access control, CRUD operations, and modular components**, ensuring scalable, maintainable, and secure functionality across multiple application modules.

PROJECTS

1. **Portfolio Website**
   Technologies Used: HTML, CSS, JavaScript, React
   - Designed a personal portfolio showcasing skills and projects with a responsive design for both mobile and desktop
2. **STEAM.kiddy Educational Platform**

Technologies Used: HTML, CSS , JavaScript, JSON

- Developed an educational platform for kids (ages 4-12) using the STEAM approach, integrating interactive courses and responsive design for improved user experience

3. **E-commerce Platform for Outdoor and Adventure Gear**
Technologies Used: PHP, SQL, JavaScript, HTML, CSS, Bootstrap

- Built an e-commerce site for outdoor gear with a user-friendly interface, back-end functionalities for order processing, and user profiles

4. **To-Do List Application**
Technologies Used: Laravel, PHP, MySQL , *JavaScript, HTML, CSS*

- Created a Laravel-based To-Do list with user authentication, allowing task management. Strengthened skills in MVC, database migrations, and Eloquent ORM.

5. **Afyiah24 – Online Pharmacy Marketplace**
Technologies Used: React.js, Laravel, MySQL (phpMyAdmin), HTML, CSS, JavaScript

- Built a pharmacy-focused e-commerce platform with user, pharmacy, and admin roles. Implemented product management, order handling, and location-based recommendations. Strengthened skills in RESTful APIs, full-stack architecture, and responsive frontend design.

6. **Next Page – AI-Powered Blogging Platform**
Technologies Used: React.js, Laravel, MySQL, HTML, CSS, JavaScript

- Collaborated on a group project to build a blogging website enhanced with AI features. Integrated tools for automatic article summarization, AI-generated content, and main image generation. Strengthened skills in frontend/backend integration, API handling, and AI feature implementation in a content platform.

7. **TaskBoard – Simple Task Management A**
Technologies Used: Vue.js, Laravel, MySQL

- Built a lightweight task management tool where users can create, update, and delete tasks in real time. Designed a responsive frontend using Vue.js and managed data persistence with Laravel and MySQL.
